ABOUT ME

During the time span in which I created my first programming projects, I discovered my passion for being a programmer. I much prefer problem-solving to rote memorization. I enjoy seeing patterns and processing challenges logically. I've tinkered with Legos when I was a little kid. You know what they say, the better you get at something, the more fun it becomes.

PROGRAMMING EXPERIENCE

Nelp

Set up and manipulated JSON objects and properties by utilizing a noSQL database along with an open-source data query, leading to the creation of a website that allows users to post reviews on national parks they visit.

InstaShoe

Set up a system to retrieve, store, and display information by implementing a SQL database, vanilla Express.js routes, and MVC, which gave way to a website that allows users to post and comment on shoes.

Weather Dashboard

Retrieved data from a website called Open Weather by setting up a fetch request to Open Weather's back-end API, which allowed for the making of a rudimentary weather dashboard that can forecast the weather.

Portfolio

Created a comprehensive portfolio to showcase my programming projects.

SKILLS

HTML, CSS, JavaScript, jQuery, responsive design, React, Bootstrap, APIs, Node.js, Express.js, mySQL/Sequelize, MongoDB/Mongoose, REST, MERN, GraphQL

EDUCATIONAL BACKGROUND

| | | |
|--|-----------------|-------------------|
| UC Riverside Extension – Coding Bootcamp | Certificate | 11/2021 – 04/2022 |
| Riverside City College | | 08/2019 – 06/2021 |
| University of California – Riverside | B.S. in Biology | 09/2015 – 05/2019 |

WORK EXPERIENCE

| | |
|--|-------------------|
| Warehouse Associate, Amazon Fulfillment Center | 03/2021 – 07/2021 |
| <ul style="list-style-type: none">As a warehouse associate, I layered boxes on pallets, moved pallets across warehouse, and sorted and scanned packages. | |
